PEOPLE'S HERBS

"I just have to thank you some more! I LOVE these moisturizers!!! Their subtle scent, their feel, how they make my feel..... I have been sticking to the red palm one, simply because I have fallen in love with it..." - People's Herbs customer

"...My routine would be in the early morning. I would apply "Dry Skin Repair" on my shoulders, arms, legs and feet. In addition to my morning routine I would also do the same body parts after taking a shower. I would say after one to two weeks of applying this product I could see my skin glisten or have a healthy look that would stay on all day. Not greasy at all; just a consistent glistening to my skin. I am 80 years old and have always had very dry skin; so, this Dry Skin Repair ointment has been the best product to help my skin look younger and fresh with a glistening effect to my skin..." - People's Herbs customer

ReDermaVive Hydrating Skin Balm

The ReDermaVive Hydrating Skin Balm formula works to develop healthy skin and encourage proper circulation. Some of the herbs in the formula help to expel toxins and reduce inflammation, while others help to promote new tissue growth.

This formula is remarkably similar to Si Wu Tang, a core formula of Traditional Chinese Medicine, in that it contains four key "blood tonics." In Chinese medical theory, when dealing with dry skin, it is important to focus on the quality and circulation of healthy blood, as this is seen as the foundation for healthy skin. Si Wu Tang formula is known to nourish and encourage blood circulation.

Aspects of this formula act to inhibit parasites that may have entrenched themselves in dry skin due to inhibited circulation and poor quality of blood, or both.

Suitable for: All skin types, especially dry skin. Non-toxic. The pure ingredients in this product give it a pleasant, natural aroma.

Directions: Smooth generously over the body and into the skin to soothe and hydrate dry skin and prevent moisture loss. Reapply as often as needed.

Full Ingredients & Benefits:

CHINESE MEDICINE HERBAL FORMULA

- **Chuan Lian Zi** (*Melia Fruit*)- conducts heat out
- **Chi Shao Yao, Bai Shao Yao** (*Red & White Peony*)- nourishes the blood
- **Chuan Xiong** (*Sichuan Lovage Root*) invigorates the blood; promotes movement of qi
- **Dan Shen** (*Chinese Salvia*)- cools and nourishes the blood; reduces abscesses
- **Dang Gui** (*Dong Quai*)- tonifies the blood; reduces swelling
- **He Shou Wu** (*Fleeceflower Root*)- nourishes the blood and extinguishes fire toxins
- **Huang Qi** (*Astragalus*)- generates flesh and expels toxins
- **Zhen Zhu** (*Margarita Pearl*) - promotes healing and generates healthy tissue

BOTANICAL OILS & WAXES

- **Avocado oil and Butter** (*Persea americana*) - moisturizes and softens the skin; hypoallergenic; anti-inflammatory; helps in regeneration of skin by boosting collagen; helps repair older skin; supports the body in wound healing; smooths the look of wrinkles; tightens the skin; diminishes appearance of scars, age spots, and blemishes.
- **Beeswax** (*Cera alba*) - creates a barrier on the skin that hydrates, conditions, soothes, and calms; has exfoliating and reparative properties that help promote skin regeneration to diminish the appearance of aging, wrinkles, and skin damage; promotes growth of newer skin; improves the complexion; reduces irritation and redness; promotes healing; adds natural radiance to skin; contains antioxidant; anti-inflammatory to help with eczema and rosacea.

- **Fractionated coconut oil** (*Caprylic/Capric Triglyceride (MCT)*) - helps keep skin soft and nourished; provides a soothing barrier without clogging pores. Unlike virgin coconut oil, fractionated coconut oil won't clog pores, because it has the comedogenic long chain fatty acids removed and is in a liquid form.
- **Red Palm Oil** (*Elaeis guineensis*) - contains super-antioxidant tocotrienols, CO-Q 10, and beta-carotene that are all important for healthy skin. This oil is ecologically sourced from Ecuador. There are no naturally occurring orangutan habitats found in Ecuador, which ensures that no orangutans were hurt or killed in the harvesting of this oil. Secondly, the harvesting of the palm oil seeds does not involve clear cutting and burning of the irreplaceable rain forest. These palm kernels are harvested from family farms.
- **Sea Buckthorn Oil** (*Hippophae rhamnoides*) - moisturizes the skin; reduces signs of aging, including wrinkles, fine lines, and spots; contains rare omega-7 oils, which are helpful to enrich the blood; 60 major and minor antioxidants; anti-inflammatory; antifungal; antibacterial; boosts micro-circulation; improves rate of regeneration of epidermal skin cells; promotes wound healing; enhances UV protection when used with sunscreen; anti-radiation to protect against radiation-induced damage; combats rosacea; reduces redness
- **Rosemary Seed Extract** (*Rosmarinus officinalis*) - used as for its antioxidant properties and its ability to extend shelf-life by keeping the oils fresh and stable

ESSENTIAL OILS

- **Frankincense** (*Boswellia carterii*) - repairs and regenerates skin cells to reduce the appearance of aging and scarring; antimicrobial; stimulates growth of new skin cells; reduces redness
- **Ho Wood** (*Cinnamomum camphora var linalool*) - contains high amount of linalool which helps calm, relax, and soothe anxiety; promotes feelings of relaxation and peace; leaves a pleasant cooling effect on skin; soothes skin; soft woody aroma with a hint of floral.
